

SE-03/N/LCD

- external label printer control
- EPL-2 and ZPL languages
- function and alphanumerical keys
- LCD display

Meters SE-03 are designed for control of external labels printer (language EPL-2 or ZPL). Letter and digital keyboard allows for entering: expiration date, product bar code, and price. This data is stored for 150 products. Moreover it is possible to print: producer's logo, tare, current date and time, charge, number of packages, number of pieces in package, sum of net and gross weights, cumulative labels. Label print may be performed automatically after weighing.

Technical data	
Model	SE-03
Capacity (number of verification units)	max 6000e (3000e for subrange in multirange operation)
Reading unit (d)	1, 2, 5, 10, ... (g, dkg, kg)
Verification unit (e)	adjustable
Tare range	-Max
Working temperature	-10÷40°C
Dimensions	238x182x77mm
Power supply	~230V 50Hz 6VA
Weight	2,3kg
IP protection class	IP65
Applied error fraction (pi)	0,5
Input voltage range	4,8÷19mV/9,6÷38mV/19,2÷72mV
Lowest possible input signal	0,4µV/e
Number of sensors	max 8
Sensor impedance	40÷4000 Ohm
Sensor supply	5V AC 25Hz
Sensor connecting system	1 sensor: 4-wires system, 1-6 sensors: 6-wires system
Housing	stainless steel
Keyboard	numeric and function keys
Display	LCD
